Profile

Dedicated and skilled Angular developer with over 3 years of experience in designing, developing, and deploying dynamic web applications. Proficient in leveraging Angular framework to build scalable and responsive front-end solutions that meet client requirements. Strong expertise in TypeScript, JavaScript, HTML5, and CSS3, Bootstrap, Nodejs coupled with a solid understanding of modern web development practices .Proficient in building scalable and robust solutions, with expertise in RESTful APIs and a solid understanding of database fundamentals.

Skills

Angular Framework ●●●●○
- Angular8+
- Angular CLI
- Angular Components, Directives, Services,
  Modules, Pipes,
- Forms(Template Driven and Reactive)
- Angular Routing and Navigation
- Angular Material
- Material Design

Front End Development ●●●●○
- TypeScript, JavaScript, Rxjs, HTML5,
 CSS, Bootstrap

Database ●●●○○
Db2, MySQL

RESTful API's ●●●●○
- RESTful API Integration
- HTTP Methods (GET, POST, PUT, DELETE, PATCH)
- Swagger(API testing and development tool)

Version Control & Other ●●●●○
GIT, GitHub , Scrum methodology, UI Development, Karma, Jasmin

Node.js ●●○○○
- NPM(Node Package Manager)
- node.js development
- Asynchronous JavaScript (Callbacks, Promises, Async/Await)

Professional Experience

Assistant System Engineer, *Tata Consultancy Services*   01/2022 – 10/2023 | Pune, India
- HTML5,CSS,JavaScript,Bootstrap and Angular8, Node.js, OOPs, .
- Developed reusable Angular components, directives, and services to streamline development and improve code maintainability.
- Worked with UI/UX designer to help , create and implement best design
- Having knowledge of Angular routings, HttpClient Modules, conditional directives, Data-Bindings.
- Integrated RESTful APIs and backend services with Angular applications to fetch and display dynamic data.
- Worked on components, modules, angular material and form controls.
- Identify , analyze and resolved complex issues.
- Collaborated closely with cross-functional teams including designers, backend developers, and QA engineers to deliver projects on time and within budget.
- Database Basics: Sound knowledge of database concepts and fundamentals, including data modeling, querying, and optimization.

Associate System Engineer, *People Tech Group*   08/2021 – 01/2022 | Hyderabad, India
- Angular Development: Extensive experience in developing Angular applications, including Angular 2+, Angular CLI, components, directives, services, modules, and pipes. and Angular Material for UI components.
- Frontend Technologies: Solid understanding of HTML5, CSS, JavaScript, Typescript, Bootstrap and responsive design principles to create engaging and user-friendly interfaces.
- Version Control & Collaboration: Experience working with Git for version control and collaboration in distributed development teams.
- Problem-solving & Troubleshooting: Effective problem-solving skills with a keen attention to detail, able to diagnose and resolve issues efficiently in fast-paced environments.

Intern, *People Tech Group*   12/2020 – 08/2021 | Hyderabad, India
- Developed web applications using Angular 8, HTML, CSS, and JavaScript to meet client requirements and deliver innovative solutions.
- Collaborated closely with team members to understand client needs, translate requirements into technical specifications, and implement effective solutions.
- Participated in daily scrum meetings to discuss project progress.
- Contributed to the entire software development lifecycle, from requirement gathering and design to development, testing, and deployment.
- Demonstrated strong problem-solving skills and attention to detail in resolving technical issues and implementing enhancements.

Projects

Morgan Stanley BFSI,   01/2022 – 10/2023
Insurance Policy Management System

- BFSI unit is basically banking and financial service unit.
- This is an Insurance Policy Management System using Angular 8 and web technologies. The system enables insurance agents and administrators to manage policies, track claims, and process payments efficiently.
- Successfully delivered the project within the specified timeline, meeting all project requirements and exceeding client expectations.
- I had worked on as per user requirements and had experience of daily Scrum calls and responsibilities.
- Worked on multiple components like User Authentication and Access Control, Policy Management, Claim Tracking, Reporting and Analytics, Dashboard etc

NeoGuru - Online Courses Certification Service   08/2021 – 01/2022
- Developed an online course certification service using Angular 8 and web technologies. The platform allows users to access a wide range of courses, enroll in certification programs, and earn certificates upon successful completion.
- Designed and implemented the frontend user interface using Angular 8, HTML, CSS, and JavaScript, TypeScript, Bootstrap, Angular UI, Angular material, Form Controls to create an intuitive and responsive user experience.
- Integrated backend APIs to fetch course data, manage user authentication, and track user progress throughout the certification process.
- Implemented features such as course search, enrollment, progress tracking, and certificate generation to provide a comprehensive learning experience for users.
- Worked on multiple components like User Authentication, Course Listings, Enrollment and Progress Tracking, Certificate Generation, Certifications, Admin Dashboard etc.

Education

BCA & MCA, *Institute Management Research and*   04/2016 – 05/2021 | Shirpur, India
Developement, Shirpur
